ADDITIONAL INFORMATION

FUNDING

The Management Consulting Group (MCG) seeks funding from alumni in order to run major club events, including its Winter Consulting Night and Binghamton University Consulting Capstone. (*The money goes towards catering and renting locations!*). These events allow the club to connect its high-achieving students to the Binghamton University consulting network.

MCG receives funds through the SOM Consulting Development Fund, founded by Eric Hu, SOM '06. Funds through this account are only available to the Management Consulting Group President for club purposes, with spending approval from Dean Upinder Dhillon. The fund is held by the Binghamton University Foundation and designated for this cause. Future expenditures could include sending a select team of students to an external case competition (a case competition at another university) or purchasing training resources for the Consulting Development Program. Additional funding will allow the club to continue to improve and grow.

If you wish to donate please click the button below. Under “Fund Options” choose “Other” and write the following in the special instructions box: **SOM Consulting Development Fund**.

In the event that you donate to MCG, email your donation confirmation to consulting@mcgbinghamton.com so that you can be recognized in the next newsletter!
